

**Universal Conversion between OEM HP5200 (C7516A) Cartridge and OEM M5025/M5035 (C7570A)**

HP5025/35 Cartridge (C7570A) and HP5200 Cartridge (C7516A) are very similar. The picture shows the differences between these 2 cartridges.

The other differences between these 2 cartridges are as follow.

1. C7570A cartridge has a higher yield then the C7516A cartridge. HP advise the C7570A cartridge can print 15,000 pages at 5% coverage and the C7516A cartridge can print 12,000 pages at 5% coverage.
2. C7570A cartridge has a bigger volume waste section than the C7516A cartridge. However, we find the C7516A waste section will not overflow even match with C7570A hopper.

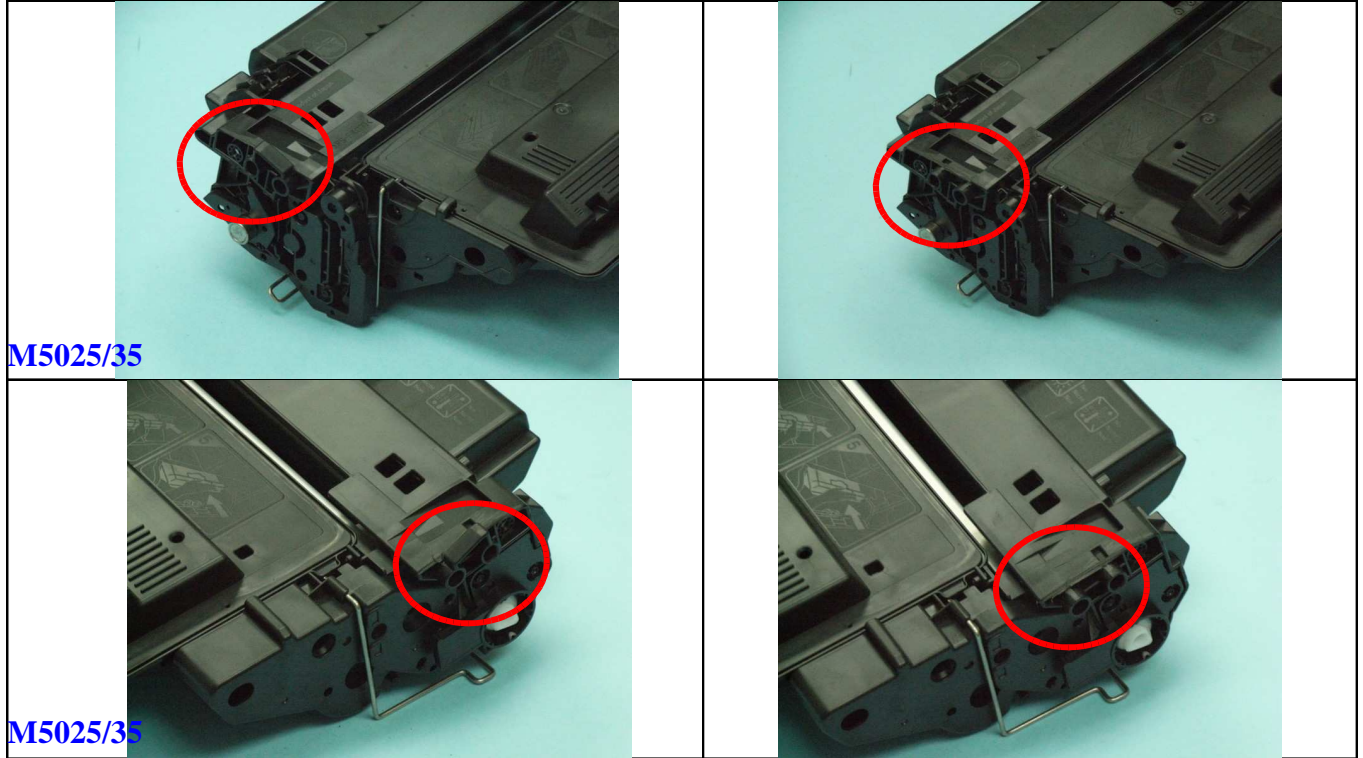

Base on this analysis and our testing, we find that it is possible to make a HP5025/35 (C7570A)

**Installation Instruction 23**

cartridge work on HP5200 printer or to make a HP5200 (C7516A) Cartridge to work on HP5025/35 printer by some small steps. We are going to list the steps as follow.

(To make C7570A cartridge fit into HP5200 Printer)

Cut the small strip on Left and Right Side as below.

(To make C7516A cartridge fit into M5025/35 Printer)

Cut the small strip on Left and Right side as below.
